HEADLINE: McCurdy & Candler Acquires CaseAware™ Software Suite

BODY:

St. Louis, MO -- (June 9, 2006) - KMC Information Systems, L.C. ("KMCIS") is pleased to announce that McCurdy & Candler, LLC, based in Decatur, GA, has purchased the KMCIS CaseAware™ Product Suite. The suite consists of CaseAware™ Manage and CaseAware™ Integrate. CaseAware™ Manage is a complete Case Management System that includes a dynamic workflow engine and integrated Document Generation, Storage & Retrieval. CaseAware™ Integrate provides automated, two-way transmission of data between the firm's Case Management/Accounting systems and the prevalent Default Services industry middleware platforms – iClear®, NewInvoice®, NewTrak®, Lenstar® and VendorScape®.

Deborah Chandler, McCurdy & Candler's Director of Client Relations & Operations, said: "I am very excited about getting CaseAware™ installed at our firm as it offers the best comprehensive software package currently available and has all the features that I have been looking for. The case management system is a user-friendly application with a broad range of needed features including a very flexible workflow module as the centerpiece. Documents are fast and easy to generate, save, and retrieve, and the document templates are easy to create or adapt from our existing application. The report module enables users to quickly create ad hoc reports or to generate standard reports available to designated departments or the entire firm. The integration software gives us ease of integration with our clients' applications and a working bi-directional flow of data. Finally, the pricing, overall flexibility, scalability, and adaptability to meet our future needs were also extremely appealing and important factors that influenced our decision. I look forward to an aggressive implementation timeframe that will be seamless to our clients, easy and painless to our attorneys and staff, with no downtime. I anticipate that once live with CaseAware™, we will experience an immediate lift to our staff's efficiency levels and that it will be a vital and integral part of the strong foundation that we already have in place for our processes and quality control measures."

Dan Cannon, COO of KMCIS stated "McCurdy & Candler has demonstrated a focused directive for the firm's future and a clear knowledge of the requirements needed to meet that directive. Given that the CaseAware™ base package pricing includes implementation, McCurdy & Candler does not have to engage another technology firm, or tie up in-house programming staff for the project planning, system set up, or deployment of CaseAware™. Our partnership with McCurdy & Candler accelerates the implementation process with the result being a timetable measured in weeks rather than months. This will enable McCurdy & Candler to realize the benefits of CaseAware™ in a considerably shorter time frame and at an appreciably lower price point than a typical software implementation cycle."

McCurdy & Candler, L.L.C. is a well established, full service firm primarily serving the needs of the financial and mortgage banking communities in the default practice area. They represent clients in foreclosures, bankruptcies, evictions, title curative, deeds-in-lieu, deficiency judgments, replevins, and REO closings, as well as all related litigation, throughout Georgia. The firm provides its clients with the highest quality legal services possible while continuously striving to exceed their expectations as to performance and customer service.

Headquartered in suburban St. Louis Missouri, KMC Information Systems is a full-service Software Development and Consulting Company dedicated to implementing quality solutions for the Legal, Mortgage, and Title industries. KMC Information Systems' Professional Services group provides support for custom application development, system administration and support, and business process and technology consulting.
