CaseAware™ Manage is a complete Case Management System that includes a dynamic workflow engine, Automated Fees and Costs, and integrated Document Generation, Storage & Retrieval. The CaseAware™ implementation at L&G has established a new benchmark for an accelerated full CaseAware Suite deployment as L&G's team working together with KMCIS completed the effort within three weeks of beginning the implementation.

Patti Conway, L&G's Operations Manager commented on CaseAware™ & KMCIS, "We knew after seeing the first demonstration that we wanted to utilize the CaseAware Suite. It is fast, powerful and allows us to automate our processes to the fullest extent. Dan and the staff of KMCIS/CaseAware are amazing. We could not have met our goals without their support and dedication. We look forward to an exciting future with CaseAware."

Dan Cannon, KMCIS' COO, had the following statement "First of all, thanks everyone at L&G for their selection of the CaseAware™ Suite as the technology basis for their Default Practice. L&G's implementation team had a very clear vision of what the firm needed CaseAware™ to do, and challenged all of us to complete the effort in four weeks. The three weeks that it actually took to complete the project demonstrates not only their extraordinary ability to adapt to a new system, but also the firm's dedication to meeting and exceeding their commitments."
