HEADLINE: Mackie, Wolf & Zientz Implements CaseAware™ Suite

BODY:

St. Louis, MO -- (May 20, 2009) - KMC Information Systems, L.C. ("KMCIS") is pleased to announce that Mackie Wolf & Zientz, P.C. ("MWZ"), based in Dallas, TX, has completed its implementation of KMCIS' CaseAware™ Suite. The suite consists of CaseAware™ Manage and CaseAware™ Integrate. CaseAware™ Manage is a complete Case Management System that includes a dynamic workflow engine, Automated Fees and Costs, and integrated Document Generation, Storage & Retrieval. CaseAware™ Integrate provides automated, two-way transmission of data between the firm's Case Management/Accounting systems and the prevalent Default Services industry middleware platforms including – Clarifire®, Countrywide®, FIS Desktop® (NewTrak®, NewInvoice®) Lenstar®, Quandis®, VendorScape®, iClear®, Walz®, ASAP, RSVP, ProVest, Players National Locator, TSG and Texas Title Interfaces.

According to Michael Zientz, a Partner at MWZ, "CaseAware™ has allowed our firm to use the technology KMCIS provides to give us efficiencies that we were unable to have with our prior case management system. We can now trust the system to work for us rather than us working for the system. The ability to batch generate documents and push and pull data to and from our client's systems allows more time for MWZ's staff to be working with our clients and their borrowers to provide more loss mitigation opportunities." Joey Pacheco, MWZ's Director of Default Operations added to these remarks by saying "The first demonstration of CaseAware™ really captured our attention. The functionality within the system, the ease with which we can modify the system and the integration with our clients' applications allows us more time to focus on our clients' needs and, as important, their clients' needs. We had considered customization of our previous case management system; however, the cost analysis showed that a CaseAware™ acquisition would be substantially less expensive and provide more efficient processing options that do not require developer efforts to modify"

Dan Cannon, the COO at KMCIS states "Congratulations to everyone at MWZ on their implementation of CaseAware™. They are an ambitious and energetic firm whose implementation went very quickly despite the heavy workload that they are experiencing. MWZ has taken advantage of the many efficiencies that the CaseAware™ Suite provides in addition to using the flexibility of CaseAware™ to configure the system in the manner that accommodates the 'MWZ Way' rather than having to change the way that the Firm conducts its business due to limitations imposed by technology. It has been a pleasure working with everyone at MZW during the implementation and KMC extends its thanks and appreciation for MWZ's switch to CaseAware™".

Mackie Wolf & Zientz P.C. is committed to providing exceptional and comprehensive legal services to the mortgage banking and financial services industries through quality, timely, efficient and ethical practices. The attorneys and staff at Mackie Wolf and Zientz, P.C. have many years of experience representing mortgage originators, mortgage servicers and mortgage investors in all areas of mortgage banking throughout the 254 counties in Texas.

Located in suburban St. Louis Missouri, KMC Information Systems is a full-service Software Development and Consulting Company dedicated to implementing quality solutions for the Legal, Mortgage, and Title industries. KMC Information Systems' Professional Services group provides support for custom application development, system administration and support, and business process and technology consulting.
